

**Supplemental Table S1. List of identified transcripts at the gene level.**

**Supplemental Table S2. List of identified transcripts at the transcript level.**

**Supplemental Table S3. Abundances of transcripts sequenced from sweat glands were compared to those of other tissues.**

**Supplemental Table S4. List of proteins identified from human sweat glands.**

**Supplemental Table S5. Abundances of proteins identified from sweat glands were compared to those of other human tissues.**

**Supplemental Figure S1. Validations of missing proteins by synthetic peptides.**

**Supplemental Figure S2. Correlation plot between transcriptome and proteome.**
